About This Game

Take to the stars and command of a group of robots, guiding each to their own teleporter for deployment across the universe.

Bewildebots is a brain-frying new take on the puzzle genre that requires the player to direct up to 10 robots at once to a set of corresponding teleporters. Each move is a command that is sent to every robot at the same time, which each robot will perform based on the way it is facing.

Explore the universe and you will find:

- 300 handcrafted puzzles across 3 grid sizes
- 5 chapters, each with brain-frying new mechanics
- Simple and intuitive keyboard controls let you focus on the puzzles!
 - Controller support
 - Fully playable offline
